FINSTERSEE IN THE FUTURE

August 2020

Dear adults, teenagers and children from Finstersee

What can I contribute?

The world is changing and so also Finstersee.

Every 20 year the "location and spatial planning" of the community Menzingen is being revised and developed.

Active participation in the form of suggestions as well as specific solution variants is very much appreciated and desired by the local council.

For this purpose, habitants of Finstersee have already started collecting ideas and working out the basics.

Now, however, other contributors such as neighbors and residents of Finstersee are needed to develop and formulate suggestions.

Let's continue to develop our wonderful living space with sustainability and joy.

The community of Menzingen starts this 1-2 year process in August 2020, at the end of which it will be adopted in a referendum.

"The best way to predict the future is to shape it" Willy Brand

How can I contribute?

- Contribute with ideas - concerns in discussions at info@finstersee.ch
- Find optimal interface solutions, which creates a WIN – WIN situation
- Bring our Finstersee district into the community as a whole in planning
- Get involved in a group in some form in a short period of time so that the most valuable and sustainable solutions can arise

Have we sparked your interest?

- Our group collects a lot of documents and creates a basis for discussion
- In Sept – Oct. 2020 we will get back to you with specific questions
- You can, however, bring in ideas and concerns at any time. We collect them
- **On October 25th, Chilbi Sunday**, we invite everyone to an interesting information event and a "brainstorming"
- A definitive group should then be formed from all the information and concerns

We invite you to actively participate, be it in conversation with one another or by email... for a beautiful, sustainable home Finstersee for us, our children and grandchildren

On the platform <https://www.finstersee.ch/dorfentwicklung> you can find all the facts
